

**Professor T.S. Zhao** is a Professor of Mechanical Engineering and the Director of Center for Sustainable Energy Technology at the Hong Kong University of Science & Technology (HKSUT). As an internationally renowned expert in energy technology, he presently focuses his research on fuel cells, multi-scale multiphase heat/mass transport with electrochemical reactions, and computational modeling. He has published more than 140 papers in prestigious journals in the fields of mechanical engineering, physics and fuel cells and has presented more than 30 plenary/keynote lectures at international conferences. In the international community, Prof. Zhao serves as Editor-in-Chief of *Advances in Fuel Cells*, Asian Regional Editor of *Applied Thermal Engineering*, and as a member of the Editorial Board for more than 12 International Journals. Prof. Zhao has received a number of recognitions for his research and teaching, including the Bechtel Foundation Engineering Teaching Excellence Award at HKUST in 2004, the Overseas Distinguished Young Scholars Award by Natural Science Foundation of China in 2006, Fellow of the American Society of Mechanical Engineers (ASME) since 2007, and the Croucher Senior Fellowship award from the Croucher Foundation in 2008.
